From Face Painter to Mask Maker

I've been a face painter since 1999 but once COVID-19 hit I was not able to run my business. I had to really give thought to what I could do. I reorganized my business in June 2020 from painting faces to making facemasks during the pandemic. I make youth and adult sizes. I enjoy when people tell me they love their mask! I still get to make smiles...one stitch at a time instead of one brushstroke at a time... for now!
